Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Claims 1-15, 17-18 and 22, 24 were allowed with the reasons set forth in the previous office action.

Amended claim 21 has been found to be allowable since the prior art either alone or in combination, neither discloses nor makes obvious the combination of a device manufacturing method comprising a steps of moving the substrate with an article handler provided in an article support during placement of the substrate on or removal of the substrate from the article support, the article handler having an electrostatic clamp and a steps of detecting a presence of the substrate on the article support by detecting a capacity formed by the electrostatic clamp and the substrate, along with the other steps as recited in the instant claim. Applicant's arguments filed 12/13/2006 are deemed persuasive and incorporated herein by reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
